Work Experience

Senior Technical Product Manager | webAI   02/2026 - Present
- Own product strategy and execution for a decentralized, privacy-first AI platform enabling secure, on-device and peer-to-peer intelligence delivery across multiple teams.
- Lead cross-functional initiatives spanning AI infrastructure, on-device LLM inference, and distributed network architecture, aligning technical feasibility with business objectives.
- Establish product discovery and delivery frameworks for AI initiatives, improving alignment across engineering, design, and go-to-market functions.

Technical Product Manager, AI Applications | webAI   03/2024 - 02/2026
- Increased platform adoption by 20% by delivering 30+ AI-driven features across an end-to-end machine learning platform for rapid model prototyping and deployment.
- Led the successful launch of the company's first iOS AI application by defining product strategy for privacy-centric, on-device LLM inference.
- Accelerated ML release cycles by translating customer insights and market research into a unified AI roadmap and prioritized backlog while partnering cross-functionally with Engineering, Design, and Marketing.

Software Project Manager | Apptronik   06/2023 - 02/2024
- Delivered AI/ML capabilities for autonomous robotic systems by serving as the primary liaison between external partners and engineering teams.
- Improved roadmap clarity and dependency management by creating feature epics, technical requirements, and user stories for AI-enabled platforms.

Associate Product Manager, Computer Vision | Flash   07/2022 - 04/2023
- Expanded adoption of AI-powered features by partnering with Engineering, Analytics, and Sales to execute the product roadmap.
- Strengthened product-market fit by incorporating customer insights and performance data into continuous AI model iteration cycles.

Education

M.S. in Artificial Intelligence, University of Colorado Boulder   2025 - 2027
Master of Business Administration, Louisiana State University Shreveport   2021 - 2022
B.S. in Computer Science, Oregon State University   2017 - 2019

Certifications

Cognitive Project Management for AI (CPMAI)+ PLUS from Project Management Institute   2025
Certified Scrum Product Owner (CSPO) from Scrum Alliance   2022
Project Management Professional (PMP) from Project Management Institute   2022

Technical Skills

Languages: Python3, JavaScript ES6+, SQL, React, MongoDB/JSON
Applications: Redash, Looker, LaunchDarkly, Jira, Postman,git, Figma, Miro, HuggingFace, Langchain, n8n
Tools: LLMs, Agentic AI, Machine Learning, Computer Vision, SLMs, MLLMs, AWS
