Work Experience

Technical Product Manager, AI Applications | webAI   03/2024 - Present
- Drive the product strategy and execution for an end-to-end ML platform, democratizing AI for technical users and enabling rapid prototyping and deployment.
- Spearhead the development and launch of the company's debut iOS application, focusing on privacy-centric, on-device LLM inference, targeting a new market segment.
- Translate user needs and market analysis into a unified product roadmap, prioritizing and delivering 30+ high-impact features that contributed to a 20% increase in user adoption.
- Collaborate cross-functionally with Engineering, Design, and Marketing to align product releases with business goals, ensuring on-time delivery within budget.

Software Project Manager | Apptronik   06/2023 - 02/2024
- Served as the primary liaison between external stakeholders and engineering teams to define and prioritize AI/ML features and capabilities for advanced robotic systems.
- Developed and maintained product roadmaps, feature epics, and user stories, creating a "shared brain" for autonomous decision-making across distributed engineering teams.

Associate Product Manager, Computer Vision | Flash   07/2022 - 04/2023
- Managed the product backlog and development lifecycle for a computer vision SaaS product, balancing technical debt with new feature development to maximize business value.
- Partnered with Analytics, Engineering, and Sales teams to define and ship accretive product features, resulting in improved model accuracy and customer satisfaction.

Project Manager I & II, Strategic Projects | Flash   09/2020 - 07/2022
- Collaborated with diverse customer groups to generate innovative ideas for new features, ensuring alignment with the organization's strategic objectives and product roadmap
- Led end-to-end ownership of multiple B2B2C software development initiatives using Agile principles,ensuring on-time delivery, meeting budgetary constraints, and exceeding client expectations
